

NICKSON DARWIN P

BI & Automation Analyst — Data Analyst · Database Administrator

nicksondarwin05@gmail.com | +91 9150223853 | LinkedIn

BI & Automation Analyst with 2 years of experience across business intelligence, database administration, and workflow automation. Expert in Oracle SQL, Metabase, Power BI, Power Automate, Python and Excel — building scalable dashboards, automating reporting pipelines, and deploying AI-driven automation (including voice-call feedback systems) that improve business decision-making.

TECHNICAL SKILLS

Analytics & BI: Power BI, Metabase, Advanced Excel, Google Sheets

Databases: Oracle SQL, Database Administration, Query Optimization

Programming: SQL, Python, JavaScript

Automation: Power Automate, Google Apps Script, Bolna (AI Voice Automation)

Data: ETL, Data Cleaning, Data Modeling

Other: Dashboard Design, Reporting Automation, Business Insights, AI Tools, WhatsApp API

PROFESSIONAL EXPERIENCE

Data Analyst – IT World (HP, Samsung and Ray-Ban Authorized Dealer) | 2024 – Present

- Built a centralized sales dashboard for 100+ retail stores across India.
- Automated Profit & Loss reports, reducing manual effort by 60%.
- Built a web-based service data application improving data accuracy and processing speed.
- Built an AI voice calling automation (Bolna) that proactively calls customers who leave low ratings, collects spoken feedback, and analyzes the responses to drive service improvements.
- Built a textile production monitoring system with automated WhatsApp reports.
- Implemented an HR attendance dashboard for 4 companies with daily automation.
- Automated sales incentive calculations for faster and error-free payouts.
- Created an accessories achievement tracker for sales team performance.

Junior Data Analyst – VU Solutions | 2024

- Built project tracking dashboards for site completion and customer reporting.
- Developed expense and engineer performance dashboards.
- Built a dynamic operations dashboard covering BOM, client payments, site visits, expenses, customer details, and drawings.
- Created a WhatsApp chatbot for collecting customer drawings and estimates.
